

# Genealogy Note Re: Greenberry Jacobs

Greenberry Jacobs did not marry Sarah (Sally) Snodgrass. She was not only thirteen years younger than Jacobs but if she had been married to him she would have conceived her first child, Alfred, when she was twelve. Also please note that the 1850 census shows there to be a fifteen year difference between the two while the profile states the difference in their age as thirteen years. Additionally there is nothing but the 1850 Census cited and there is nothing in that single source linking that Sarah Jacobs with anyone whose last name was Snodgrass.
